

SUNSET MANOR

Osteoporosis Long-Term Care launches website in Collingwood

Sunset Manor and the County of Simcoe welcomed Osteoporosis Long-Term Care on January 16, 2012, as the organization launched its new website, aimed at assisting those who want to provide better osteoporosis care to prevent fractures.

As part of the Ontario Osteoporosis Strategy, and in collaboration with its partners, Osteoporosis Long-Term Care's goal is to provide meaningful and useful information, the latest research, and best care practices to improve the bone health of older adults.
